

Improvement of selection services work in cattle breeding in Jablanica district

Improve the selection and breeding of cattle in Jablanica district through support of the Simmental¹ association of cattle breeders in south Serbia. There will be at least six cattle breeding shows organized at municipal level as well as one regional event in Leskovac . This association has previously organized such events in the past hence they have a proven track record of doing this. Also the association will be more focused in selection of cattle in smaller municipalities such as Medvedja and Lebane ,Bojnik and Vlasotince . Special care will be given in selection of the calves which nobody else is in Jablanica district. Furthermore the project will have an education component that will be organized in villages in each of the municipalities.

Total Value: 33,425.00 Euros

MIR2 Contribution: 20,000.00 Euros

Other Contribution: The municipalities of Leskovac ,Vlasotince , Bojnik ,Lebane and Medvedja will financially contribute to project with a total of 10,835.00 Euros and the project proponents will contribute with additional 2,790.00 Euros.

This is a Regional project and will be working in all the municipalities of Jablanica District
